

# EATER'S GUILD FARM

## Thanksgiving Shares, Free Range Turkey

Eater's Turkeys are raised on a diet of organic grain, verdant plants, and virile bugs. They are also given the freedom to range and enjoy their lives, which results in unusually delectable birds.

The Thanksgiving share price is \$100. This price covers the cost of one white, double breasted turkey at \$4 per pound.

The balance of the share price will be returned in seasonal vegetables, such as squash, carrots, beets, rutabega, spinach kale or collards, and onions, which will handily complete the thanksgiving spread. Shares are limited and will be sold in order of request.

Pickup at the farm will be Tuesday or Wednesday (11/22-11/23) before Thanksgiving. We'll have mulled cider and other good food to sample or purchase.

Perhaps you'd like a turkey for Christmas, too? People who buy a Thanksgiving share may buy an extra turkey for the cost of that turkey. The turkey limit is two. The cost of the second turkey will be assessed on pickup day.
